Robeson County Request for Proposal **Grass Cutting Services** **For Public Utilities 2020-2021**

The following information is a list of Robeson County water system addresses, water tanks, and well sites that need to be cut and maintained by an outside vendor. See following pages.

Contractual work will begin *Wednesday, April 1, 2020 and will conclude on Wednesday, December 1, 2021. **THIS IS A TWO (2) YEAR CONTRACT.*** Work will be done any day during the week with the exception of the hours of 6 o'clock am until 1 o'clock pm on Sunday mornings. All services are to be performed in a professional manner and contractual employees must be professional in conduct, attire and work performed.

Either party will have the right to terminate this agreement upon 30 days written notice with or without cause.

Failure to meet weekly schedules without contacting Myron Neville at (910) 671-3485, Director of Robeson County Public Utilities, can be cause of termination. Robeson County shall have the right to terminate this agreement without a 30 day written notice.

PLEASE SUBMIT PROPOSAL TO: Myron Neville, Public Utilities Director, Robeson County Public Utilities, 176 Legend Road, Lumberton, NC 28358 no later than Wednesday, March 11, 4:00 pm.

Services Includes:

Mowing
Weed Eating
No spraying

1. **Trimming after Cutting of Grass:**
Trimming shall be done around all buildings, landscaping, trees,

bushes (*not incorporated in landscaping*), sidewalks, driveways, and all other permanent fixtures within the cutting field.

2. **Clean Up:**

After grass cutting, weeding, and/or trimming is performed, all clippings shall be blown out of any landscaped areas, landscaped beds, walks, drives, lots, etc.

3. **Frequency of cut:**

Mowing will take place starting after execution of this agreement. Mowing and trimming shall be performed on a seven (7) to ten (10) day cycle during the growing season, depending on the weather conditions, or as directed by Myron Neville.

4. **Weather Conditions:**

The grass shall not be cut when weather conditions are such that it is not reasonable to expect the entire job will be completed. No cutting shall be done when the ground is soft and ruts will be left by the mowing equipment.

5. **Safety:**

All work shall conform to all federal, state, local and OSHA Safety Standards. If work is performed on or near sidewalks or roadway areas, it is required that the safety of pedestrian and automobiles be observed closely. Work sites must be kept free of objects that can cause injury to individual's or damage to vehicles or property in the vicinity of the work area. The contractor's staff shall wear safety vests, safety shoes and gloves at any time when on the job site.

All contractors must have:

- Certificate of Insurance: Commercial, General Liability with coverage of \$1,000,000 for each occurrence and \$1,000,000 person and advertising injuries.
- List of 3 Current References
